

Downdraft Grinding Table

Suitable for grinding, polishing, deburring, welding, cutting and other working conditions of metal and non-metal workpieces.

Performance Description

- 1- Integral structure, beautiful appearance, small floor area, easy to move and fix with Fuma wheel installed at the bottom.
- 2- Three sides surrounding design, effectively preventing the spread of dust.
- 3- Multi-stage high efficiency filtration, up to emission standard.
- 4- Drawer dust box, convenient and quick to pour dust.
- 5- Dustproof 5-hole socket, convenient to connect with electric tools.
- 6- Removable modular work surface

Standard Configuration

- 1- Aluminium alloy flame arrestor
- 2- Primary filter
- 3- HEPA filter
- 4- Dustproof 5-hole socket
- 5- 12L dust drawer
- 6- 5m power cord

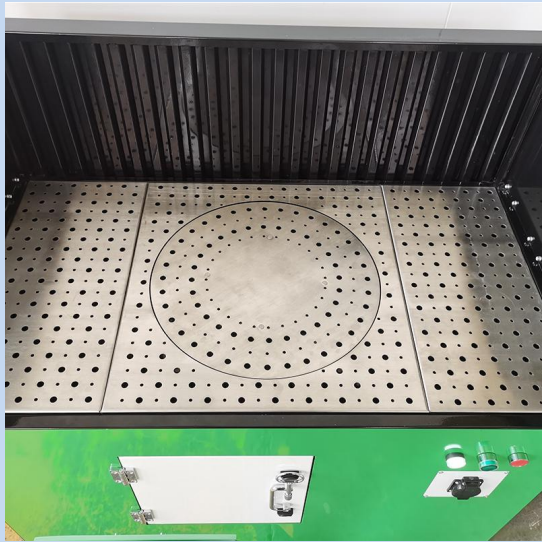

Optional Components

- 1- Non-slip soft pad
- 2- IO Port (remote control)
- 3- Stainless steel custom machine structure
- 4- Working surface can be designed as round hole, square hole, long hole.
- 5- Working surface can be stainless steel, brass, nylon, polyurethane.

Technical Parameters

	MLWF100D	MLWF150D	MLWF200D
Motor Power	1.1KW	1.5KW	1.1KW*2
Working Voltage	220V 50Hz	380V/50Hz	380V/50Hz
Air Volume	1500m ³ /h	2500m ³ /h	3000m ³ /h
Filtering Accuracy	0.3um	0.3um	0.3um
Filter Material	Aluminium alloy flame arrestor, Primary filter, HEPA filter		
Cleaning Mode	Manual	Manual	Manual
Noise Level	75±3dBA	75±3dBA	75±3dBA
Dimension	1000*600*1000mm	1500*800*1000mm	2000*800*1000mm
Weight	105kg	150kg	260kg
